

This ain't an original
I stole every word
From other songs
Songs that you might have heard

And this melody
It did not come to me
I stole it
Stole it from a hit you see

This ain't an original
I stole every word
From other songs
Songs that you might have heard

This ain't a new song
It's one you already heard
Only the words were different
I know it sounds absurd

This ain't an original
I stole every word
From other songs
Songs that you might have heard

The melody might sound familiar
Although not exactly the same
I did not change any chords
To make it fit the rhyming game

If you liked this song
I can make a million more
By mixing up songs and lyrics
Although that sounds like a chore

This ain't an original
I stole every word
From other songs
Songs that you might have heard

This ain't an original
I stole every word
From other songs
Songs that you might have heard

Chords D Am Bm G (over and over)
