

You left me
You left me
I really don't know why
When you told me you had to go
You really made me cry
Was it something I did
Or something I said

You left me
You left me on my own
You left me
While I was on the phone

You really left me
hanging out to dry
You told me you would go
Away somewhere to die
Was it something I did
Or something I said

You left me
You left me on my own
You left me
While I was playing the trombone

I left you
I left you
I really don't know why
When I told you I had to go
I almost started to cry
It wasn't something you did
And not something you said

I left you
I left you on your own
I left you
While you where on the phone

I really left you
hanging out to dry
I told you I would go
I was feeling really bad
It wasn't something you did
And not something you said

I left you
I left you on your own
I left you
While you where playing the trombone

Chords are just lots of C7 D7 and E7
